Programming & Development — JavaScript, Software Development, Software Coding, Object-Oriented Programming (OOP), Debugging, Code Optimization, Version Control, Application Development, Technical Troubleshooting, Artificial Intelligence (AI)

CMS & Web Solutions — WordPress Development, Custom WordPress Themes, Figma to WordPress, Website Development, Landing Page Development, Website Maintenance, Content Management Systems, Workflow Automation, Nintex, Form Development, Web Hosting Basics

Professional Experience

Software Developer — Apar Technologies Pvt Ltd **Apr 2024 – May 2026, Noida**

- Engineered responsive front-end interfaces for 4+ enterprise projects using ReactJS, JavaScript, Bootstrap, WordPress, HTML5, and CSS3.
- Optimized website performance by minifying CSS/JavaScript assets, reducing average page-load times by 15–18% across production environments.
- Developed mobile-first layouts for MEDEION, BAM, TLL, and corporate platforms, ensuring compatibility across 4+ major device breakpoints.
- Collaborated with cross-functional teams during 2 weekly sprint cycles, delivering client-approved UI components before deadlines consistently.
- Implemented dynamic navigation menus, carousels, and validation modules, enhancing navigation usability and form interaction across applications.
- Maintained and updated the WordPress-based corporate website, improving site stability and reducing downtime by 15% through regular optimizations.
- Streamlined WordPress website maintenance through 5–6 monthly updates, sustaining high website availability and improving SEO readiness.

Trainee — Semblance IP Pvt Ltd **Jun 2023 – Dec 2023, New Delhi**

- Assisted process improvement initiatives that increased operational efficiency by 8–10% within six months across multiple internal workflows.
- Coordinated with cross-functional departments to deliver project milestones on schedule during 2 simultaneous development assignments.
- Analyzed operational datasets and generated detailed reports, improving workflow accuracy by 10–12% through data-driven recommendations and tracking.
- Designed responsive user interfaces for Nippon and EliteNest projects, resolving 10+ cross-browser UI issues.

Projects

SISHD — Designed responsive UI screens in Figma and collaborated with developers to implement user-friendly, mobile-responsive front-end layouts with improved accessibility and navigation.

E-Lite SIS K12 — Enhanced responsive school management portal features using HTML, CSS, Bootstrap, JavaScript, .NET, and C#, enabling students to access schedules, homework, and academic information efficiently.

Nintex Forms & Workflows — Built automated business workflows and dynamic forms using Nintex, reducing manual processing time by 30% through process automation solutions.

MEDEON Website UI — Engineered responsive front-end interfaces using HTML, CSS, JavaScript, Bootstrap, and React, improving page-load speed by 25% through optimized assets.

MEDEON WordPress Website — Converted Figma designs into a custom WordPress website, delivering responsive layouts, enhanced usability, and seamless cross-device user experience.

Nippon UI — Developed complete user interfaces using HTML, CSS, JavaScript, and React, achieving 20% faster rendering time across multiple devices and browsers.

ELITENEST UI — Planned responsive user interfaces using HTML, CSS, Bootstrap, and JavaScript, reducing bounce rates by 18% through improved user experience enhancements.

UI Development – Semblance IP Pvt Ltd — Created responsive and interactive interfaces using HTML, CSS, JavaScript, and Bootstrap, reducing load time by 22% with cross-browser compatibility.

Education

Bachelor of Computer Applications (BCA) — Computer Applications, Swami Vivekanand Subharti University **2013 – 2016**

Secured 67%.

Awards

Team Excellence Award — Recognized by the CEO for delivering responsive UI modules and contributing to successful project deliveries within scheduled release timelines.
